Old Company Name in Catalogs and Other Documents

On April 1st, 2010, NEC Electronics Corporation merged with Renesas Technology Corporation, and Renesas Electronics Corporation took over all the business of both companies. Therefore, although the old company name remains in this document, it is a valid Renesas Electronics document. We appreciate your understanding.

*	*1. Check sheet Renesas processes the mask files generated by the mask file generation utilities out of those held on the floppy disks you give in to us, and forms them into masks. Hence, we assume liability provided that there is any discrepancy between the contents of these mask files and the ROM data to be burned into products we produce. Check thoroughly the contents of the mask files you give in. Prepare 3.5 inches 2HD (IBM format) floppy disks. And store only one mask file in a floppy disk.														
	Microcomputer type No.: ☐ M30290MCV-XXXHP														
	File code	e:						(hex)							
Mask file name:								.MSK	//SK (alpha-numeric 8-digit)						
	*2. Mark specification The mark specification differs according to the type of package. After entering the mark specification on the separate mark specification sheet (for each package), attach that sheet to this masking check sheet for submission to Renesas. For the M30290MCV-XXXHP, submit the 80P6Q mark specification sheet. *3. Usage Conditions For our reference when of testing our products, please reply to the following questions about the usage of the														
	products you ordered.														
	(1) Which kind of oscillation circuit is used?														
		☐ XIN-XOU	⊤ oscillator			Xcin-Xco	UT oscilla	ator							
		□ On chip	oscillator			PLL frequ	iency syn	thesizer							
	(2) Which kind of XIN-XOUT oscillation circuit is used?														
		□ Ceramic	resonator			Quartz-cr	ystal osc	illator							
		□ External	clock input			Other ()							
	Wh	at frequency	do you use?			•		-
