These intangible goods are not subject to Annex I of common Dual-Use list (428/2009) in its current version.
RX Target Board Connectors

ISL80019AIRZ Buck Converter

Voltage Threshold: 3.07V
Output Type: Open-Collector

Notice

1. Descriptions of circuits, software and other related information in this document are only provided to illustrate the operation of semiconductor products and application examples. You are fully responsible for testing and verifying the performance of the circuits, software and information in the design of your product or system. Renesas Electronics disclaims any and all liability for any losses and damages incurred by you or third parties arising from the use of these circuits, software, or information.

2. Renesas Electronics hereby expressly disclaims any warranties against and liability for infringement or any other claims involving patents, copyrights, or other intellectual property rights of third parties, by or arising from the use of Renesas Electronics products or technical information described in this document, including but not limited to, the product data, drawings, charts, programs, algorithm, and application examples.

3. No license, express, implied or otherwise, is granted hereunder any patents, copyrights or other intellectual property rights of Renesas Electronics or others.

4. You shall hold harmless, defend and indemnify Renesas Electronics from any and all liability which you may incur or which may be incurred against you or third parties arising from such alteration, modification, copying or reverse engineering.

5. Renesas Electronics products are classified according to the following two quality grades: "Standard" and "High Quality". The intended applications for each Renesas Electronics product depends on the product's quality grade, as indicated below.

6. "Standard": Computers, office equipment, communication equipment, test and measurement equipment, audio and visual equipment, home electronic appliances, machine tools, personal electronic equipment, industrial robots, etc.

7. "High Quality": Transportation equipment (automobiles, trains, ships, etc.), traffic control (traffic lights), large-scale communication equipment, key financial terminal systems, safety control equipment, etc. Unless expressly designated as a high reliability product or a product for harsh environments in a Renesas Electronics data sheet or other Renesas Electronics document, Renesas Electronics products are not intended or authorized for use in products or systems that may pose a direct threat to human life or bodily injury (artificial life support devices or systems, surgical implantations, etc.) or may cause serious property damage (space systems, aircraft control systems, key plant systems, military equipment, etc.). Renesas Electronics disclaims any and all liability for any damages or losses incurred by you or any third parties arising from the use of any Renesas Electronics product that is inconsistent with any Renesas Electronics data sheet, user's manual or other Renesas Electronics document.

8. When using Renesas Electronics products, refer to the latest product information (data sheets, user's manuals, application notes, "General Notes for Handling and Using Semiconductor Devices" in the reliability handbook, etc.) and ensure that usage conditions are within the ranges specified by Renesas Electronics with respect to maximum ratings, operating power supply voltage range, heat dissipation characteristics, installation, etc. Renesas Electronics disclaims any and all liability for any malfunctions, failure or accident arising out of the use of Renesas Electronics products outside of such specified ranges.

9. Although Renesas Electronics endeavors to improve the quality and reliability of Renesas Electronics products, semiconductor products have specific characteristics, such as the occurrence of failure at a certain rate and malfunctions under certain use conditions. Unless designated as a high reliability product or a product for harsh environments in a Renesas Electronics data sheet or other Renesas Electronics document, Renesas Electronics products are subject to aging degradation or other adverse effects that may affect their reliability and performance over time. You are responsible for retesting the products or systems you use to ensure that they meet your quality requirements.

10. It is the responsibility of the buyer of the Renesas Electronics products, or any other party who distributes, disposes of, or otherwise sells or transfers the product to a third party, to notify such third party that the Renesas Electronics products are subject to the following conditions and requirements set forth in this document.

11. This document shall not be reproduced, reprinted or duplicated in any form, in whole or in part, prior to publication without written consent of Renesas Electronics.

12. Please contact a Renesas Electronics sales office for details as to environmental matters such as the environmental compatibility of each Renesas Electronics product. You are responsible for carefully and sufficiently investigating applicable laws and regulations that regulate the inclusion or use of controlled substances, including without limitation, the EU RoHS Directive, and using Renesas Electronics products in compliance with all these applicable laws and regulations. Renesas Electronics disclaims any and all liability for damages or losses occurring as a result of your noncompliance with applicable laws and regulations.

13. Renesas Electronics products and technologies shall not be used or incorporated into any products or systems whose manufacture, use, or sale is prohibited under any applicable domestic or foreign laws or regulations. You shall comply with all applicable export control laws and regulations promulgated and administered by the governments of any countries asserting jurisdiction over the parties or transactions.

14. In no event shall Renesas Electronics be liable for lost profits, lost data, lost revenue, loss of business or any other form of damages arising out of or relating to any failure to vend, perform, or satisfy any warranties or guarantees made by Renesas Electronics.

15. Unless expressly designated as a high reliability product or a product for harsh environments in a Renesas Electronics data sheet or other Renesas Electronics document, Renesas Electronics products are not intended or authorized for use in products or systems that may pose a direct threat to human life or bodily injury (artificial life support devices or systems, surgical implantations, etc.) or may cause serious property damage (space systems, aircraft control systems, key plant systems, military equipment, etc.). Renesas Electronics disclaims any and all liability for any damages or losses incurred by you or any third parties arising from the use of any Renesas Electronics product that is inconsistent with any Renesas Electronics data sheet, user's manual or other Renesas Electronics document.

16. Reference shall be made to the relevant laws and regulations of the country of destination in advance of the contents and conditions set forth in this document.

17. In the event of any conflict between the terms and conditions of this document and any Renesas Electronics data sheet, user's manual or other Renesas Electronics document, the terms and conditions of the Renesas Electronics data sheet, user's manual or other Renesas Electronics document shall govern.

Renesas Electronics Corporation

4.2.1

(Note 2) “Renesas Electronics product(s)” means any product developed or manufactured by or for Renesas Electronics.

(Note 1) “Renesas Electronics” as used in this document means Renesas Electronics Corporation and also includes its directly or indirectly controlled subsidiaries.
