PRODUCT/PROCESS CHANGE NOTICE (PCN)

PCN# TB1902-01

PCN Type: Manufacturing Site - Alternate Test Location

Data Sheet Change: None

Detail of Change: Add Sigurd, Taiwan as an alternate Test site for the products listed on this notice. These parts are currently tested at the IDT Penang, Malaysia facility.

This change will allow IDT the flexibility to ship from either facility and will provide for the increase in capacity, flexibility and shorter lead time to meet market demand.

There is no change in the test flow or test coverage. Load boards are the same at both qualified facilities. IDT has completed the electrical test correlation and based on the test results we do not anticipate any impact on device performance. The testing is fully compatible and transferrable between the test facilities.
