Subject: Price Increase for the Listed Intersil Analog Products

Please be aware that effective February 26, 2017 prices for some of Intersil's legacy Analog products will be increased by approximately 10 – 15%. The price increase is limited to only those products listed on the following pages.

These adjustments to the prices are necessitated by increased materials, maintenance, and overhead costs which must be amortized over decreasing quantities of these products. Furthermore, we recognize that continuity of supply is very important and this increase will help reinforce continued long term manufacturing of these products. Intersil intends to supply these products to our current customers for the foreseeable future.

Please forward this letter to people in your organization that may be impacted by these price increases.

Best Regards:
