

## Product Change Notice (PCN)

**Subject:** Firmware update for the Intersil ISL69144\* and ISL69147\* Products

**Publication Date:** 1/5/2017

**Effective Date:** 1/5/2017

**Revision Description:**

Initial Release

**Description of Change:**

This notice is to inform you that Intersil has updated the firmware for the listed ISL69144\* and ISL69147\* Products

**Reason for Change:**

This notice is to inform you of a change in internal firmware for the ISL69144\* and ISL69147\* to correct the behavior when the device is configured as a single output, as opposed to using dual outputs. In this situation, if the AMD processor sends a command to the unused rail, then the device will not issue a VOTFC (Voltage On The Fly Completion). The firmware change is internal and does not affect the users configuration and settings. It will be a transparent upgrade improving single rail operation for VOTFC and the power management setting on the unused rail.

**Impact on fit, form, function, quality & reliability:**

The change will have no impact on the form, fit, function, quality, reliability and environmental compliance of the devices.

**Affected Products List:**

ISL69144IRAZ	ISL69147IRAZ
ISL69144IRAZ-T	ISL69147IRAZ-T
ISL69144IRAZ-T7A	ISL69147IRAZ-T7A

**Product Identification:**

Product affected by this change is identifiable via Intersil’s internal traceability system. There will be no change in external marking of the packaged parts

**Qualification status:** Completed

**Sample availability:** 1/31/2017

**Device material declaration:** Available upon request

*Questions or requests pertaining to this change notice, including additional data or samples, must be sent to Intersil within 30 days of the publication date.*
