1. Affected product

Product	Outline	Control code ^{Note}
IE-789488-NS-EM1	Emulation board for μ PD789477, 789488 Subseries	A, B, C

It is not necessary to upgrade a control code D product.

2. Details of upgrade

The bug described below will be corrected (addition of specifications). After upgrading, the control code will be D.

(1) Bug in A/D conversion function during μ PD78948x emulation

Control code: A, B, C

3. Upgrade petition period

From August 20, 2001.

The upgrade described herein will be provided for free for a period of one year from the above date. After the free upgrade period expires, upgrade will be available for a fee. You are advised to take advantage of the free upgrade offer during the free upgrade period.

Note The "control code" is the second digit from the left in the 10-digit serial number in the warranty supplied with the in-circuit emulator you purchased (if it has not been upgraded). If the in-circuit emulator has been upgraded, a label indicating the new version is attached to the in-circuit emulator and the x in V-UP LEVEL x on this label indicates the control code.
