To our customers,

Old Company Name in Catalogs and Other Documents

   On April 1st, 2010, NEC Electronics Corporation merged with Renesas Technology Corporation, and Renesas Electronics Corporation took over all the business of both companies. Therefore, although the old company name remains in this document, it is a valid Renesas Electronics document. We appreciate your understanding.

Effective Date	
		All lots			1.0	Permanent	

We correct the description on the writer function of the internal flash memory of the E10A or E10T emulator because there are insufficient explanations in the user's manual.

The following items will be added to section 6.4 in each user's manual:

• The writer function of the internal flash memory is used for debugging. Do not use this function for mass production on your system.

• When your system is mass-produced, use the on-board writer and the socket adapter.
