

Outline

When using the e² studio IDE, take note of the problems described in this note regarding the following points.

1. Using the Smart Browser
2. Using the FIT module downloading facility

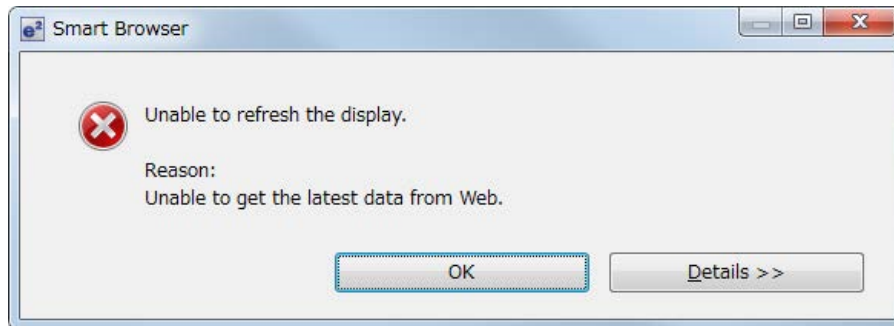

1. Using the Smart Browser

1.1 Applicable Product

e² studio V3.1.2.09 to V5.0.0.043

1.2 Details

Using the Smart Browser after the renewal of the Renesas Web site on May 30, 2016 may lead to display of the error message below.

A document being displayed in the Smart Browser view might be cleared after the message appears.

1.3 Conditions

This problem arises if the following conditions are all met:

- (1) Using the Smart Browser after May 30, 2016.
- (2) Using e² studio V3.1.2.09 or a later version*.
*: The Smart Browser was initially added in e² studio V3.1.2.09.
- (3) Any of the following operations, (a) to (d).
 - (a) Clicking on the updating button on the Smart Browser view
 - (b) Opening a new Smart Browser view
 - (c) Downloading a file from the right-click menu, while a document list obtained on or before May 29, 2016 remains in the Smart Browser view.
 - (d) Activating e² studio with a workspace in which the Smart Browser view was in use

1.4 Workaround

If the document list has not been cleared, you can refer to the documents which have been downloaded. Even if the list has been cleared, the downloaded documents remain in the folder below. You can search for other documents or download sample code from the Renesas Web page through a Web browser.

The folder where downloaded documents are stored:

<Folder where the e² studio is installed>\internal\SmartBrowser\

1.5 Schedule for Fixing the Problem

This problem will be fixed in e² studio V5.0.1, which will be available from June 10.

For more information, refer to Renesas Tool News, document no. R20TS0033EJ0100.

For V4.3 of the e² studio, the problem will be fixed in a later version.

2. Using the FIT Module Download Facility

2.1 Applicable Product

e² studio V4.0.0.026 to V5.0.0.043

2.2 Details

A list of modules might not be displayed when creating a new project in the e² studio or using the FIT configurator to download an FIT module after the renewal of the Renesas Web site on May 30, 2016.

2.3 Conditions

This problem arises if both of the following conditions are met:

- (1) Performing an operation covered by 2.2 above on May 30, 2016 or later.
- (2) Using e² studio V4.0.0.026 or a later version*.

*: The downloading of FIT modules was added in e² studio V4.0.0.026.

2.4 Workaround

Obtain new FIT modules by using a Web browser to download them from the Renesas Web page, and save the copies in the folder below.

<Folder where the e² studio is installed>\FITModules\

2.5 Schedule for Fixing the Problem

This problem will be fixed in e² studio V5.0.1, which will be available from June 10.

For more information, refer to Renesas Tool News, document no. R20TS0033EJ0100 at the URL below.

<http://www.renesas.com/search/keyword-search.html#genre=document&q=R20TS0033EJ>

For V4.3 of the e² studio, the problem will be fixed in a later version.
