Notification Regarding Microsoft Windows® Operating Environments for Software Tools from Renesas Electronics Corporation

This document is to notify you of forthcoming information on the state of support for Microsoft Windows® 10
by software tools from Renesas Electronics Corporation.

---

1. Support for Microsoft Windows® 10
   Refer to the following page, which will show information for each MCU
   family on the names and version numbers of products which support Windows
   10, names and version numbers of products for which operation under
   Windows 10 has been confirmed, and any applicable restrictions.
   http://tool-support.renesas.com/autoupdate/support/eng/windows/windows10eng.pdf
   The information will be released on December 7.

2. Cautionary Notes
   - Note that we have not confirmed the operation of products not listed on
     this page and of products for which the page indicates that operation
     under Windows 10 has not been confirmed, and have no future plans to do
     so.
   - Depending on the environment in use, restrictions other than those shown
     on the page may apply.
   - Please understand in advance that additions and changes to the
     information on the page may be made as required.
