Renesas RX Family Firmware Integration Technology (FIT)

- Addition of Supported Compilers and End of FIT Module Updates for Some Devices -

Outline

This tool news is a notification of the addition of supported compilers for Renesas RX family Firmware Integration Technology and the end of FIT module updates for some devices.

1. Addition of Supported Compilers

In addition to the RX Family C/C++ Compiler Package (Renesas Compiler), the following compilers from our partners are now supported by the Firmware Integration Technology (FIT module).

- GCC for Renesas RX (GCC Compiler)
- IAR C/C++ Compiler for Renesas RX (IAR Compiler)

■ Supported versions and devices of RX Driver Package (RDP)

- Supported RDP versions

RDP Ver.1.20 (Scheduled to be released in July 2019.)^(Note)

Note: Some FIT modules are supported with restrictions or not supported. Full support for these modules will be provided in later versions. For details, see “3. Supported Versions of RX Driver Package V1.20 for Partner Compilers.”

Also the following FIT module will not be included in RDP V1.20 or later versions.

Serial Communications Interface with FIFO
(SCIFA: Device Driver for Serial Memory Control)

- Supported Devices

RX110, RX111, RX113, RX130,
RX230, RX231, RX23T, RX24T, RX24U,
RX64M, RX65N, RX651, RX71M, RX66T, and RX72T group

2. End of FIT Module Updates for Some Devices

Renesas will no longer provide updates for the FIT modules for the following devices after RDP Ver.1.19. These modules will not be included in Ver.1.20 or later versions.

- End of Update Devices

RX210, RX21A, RX220,
RX610, RX621, RX62N, RX62T, RX62G, RX630, RX631, RX63N, and RX63T groups

For the FIT modules for the above devices, use the RDP Ver.1.19 ^(Note).

RDP Ver.1.19 will continue to be available for download on Renesas official web site.
