The Uninstaller for the Flash Development Toolkit V.3.06 and V.3.07 Released

The uninstaller for the Flash Development Toolkit V.3.06 and V.3.07 has been released. (These toolkits are used for programming flash memory in the SuperH RISC engine, M16C, H8SX, H8S, H8, and 740 families of MCUs.)

1. Description

The uninstaller for the Flash Development Toolkit V.3.06 and V.3.07 has been released, which we announced in RENESAS TOOL NEWS Document No. 061221/tn1. So download it free of charge from the Web site.

This site will be opened from February 23 on.

NOTICE:

The above URL is that of our global site (in English). The regional sites will be opened two or three days after the above date.

If you need to uninstall the following versions of Toolkit (including each evaluation version), be sure to use this uninstaller.

- V.3.06 Release 00
- V.3.07 Release 00
- V.3.07 Release 01
- V.3.07 Release 02
