We have revised the Application Leading Tool for RL78. Although the Application Leading Tool products were being provided per group, they will be provided as family-unit products in and after this revision. The Application Leading Tool for RL78/L13 V1.00.00, which was released on August 1, 2013, was discontinued with the release of the Application Leading Tool for RL78. The Application Leading Tool for RL78/G10 has now also been newly added with Application Leading Tool for RL78, so both are included as components.

1. **Product and Version Concerned**
   Application Leading Tool for RL78 V1.00.00

   Components that have been incorporated in this product are listed below.
   - Application Leading Tool for RL78/L13
   - Application Leading Tool for RL78/G10

2. **Description of Revision**
   Supported MCU Added
   The following MCU has been added to the support line:
   - RL78/G10 group of MCUs (RL78 family)

3. **Updating Your Product**
   Download the installer of the product from the following URL:

   https://www.renesas.com/applilet_download
   Then install it.
   The installer will be published on this site on November 6, 2013.
   The above URL is one of our global sites.

4. **Note**
   The following problem has not been fixed yet:

   - When the timer KB20 is in Use (RL78/L13)
   For details of the problem, see RENESAS TOOL NEWS Document No. 131016/tn3
   https://www.renesas.com/search/keyword-search.html#genre=document&q=131016tn3
