RENESAS Tool News

Application Leading Tool for RL78 Revised

We have revised the Application Leading Tool for RL78 from V1.01.00 to V1.02.00.

1. Descriptions of Revision

1.1 Problem fixed

The following problem has been fixed:

- When the timer KB20 is in Use (RL78/L13 group)

For details of the problem, see RENESAS TOOL NEWS Document
No. 131016/tn3

https://www.renesas.com/search/keyword-search.html#genre=document&q=131016tn3

1.2 Removal of the watch error correction function from the real-time clock

(target MCUs: RL78/L13, RL78/G1C, and RL78/L1C groups)
The watch error correction function of the real-time clock has been removed.

If watch errors of the real-time clock require correction, please consult your local Renesas Electronics marketing office or distributor.

2. Updating Your Product

Download the installer of the product from the following URL:

https://www.renesas.com/applilet_download

The installer will be published on this site on April 7.
