RENESAS Tool News

Application Leading Tool for RX Revised

We have revised the Application Leading Tool for RX from V1.00.00 to V1.01.00.

1. Description of Revision

1.1 Device Support

The following MCUs have been added to the support line:
- RX110 group of MCUs (RX family)

As a result, the MCUs supported by the V1.01.00 product are as follows:
- RX110 group of MCUs (RX family)
- RX111 group of MCUs (RX family)

1.2 Newly Supported PinView Function

PinView function, which displays pin settings for the MCU, has been supported.

For details, see the Release Note at:

https://www.renesas.com/products/software-tools/tools/code-generator/ap4-application-leading-tool-applilet.html#documents

The Release Note will be published on March 5, 2014.

2. Updating Your Product

Download the installer of the product from the following URL:

https://www.renesas.com/applilet_download

Then install it.

The installer will be published on this site on March 5, 2014.
