RENESAS Tool News

M16C R8C Debugger Package Revised to V.1.00 Release 01

We have revised the M16C R8C debugger package from V.1.00 Release 00 to V.1.00 Release 01. This debugger package is used for the M16C/60, /30, /20, /10, /Tiny, and R8C/Tiny series of MCUs.

1. **Descriptions of Revision**

    1.1 Functions Introduced

    (1) The AutoUpdate utility supported.
         For this utility, see RENESAS TOOL NEWS "The High-performance Embedded Workshop, an Integrated Development Environment, Provided with the AutoUpdate Utility" No. RSO-HEW_1-050301D, issued on March 1, 2005.

    (2) The menu item for opening the online help in the emulator debugger introduced.

    (3) Fonts become selectable in the Script window.

    1.2 High-performance Embedded Workshop Revised
        The High-performance Embedded Workshop included with the debugger package has been revised from V.4.00.00 to V.4.00.01.
        For details, see RENESAS TOOL NEWS "The High-performance Embedded Workshop, an Integrated Development Environment, Revised to V.4.00.01" No. RSO-HEW_1-050401D, issued on April 1, 2005.

    1.3 Problems Fixed
        The following problems have been fixed:

    (1) On deleting information on address-match breakpoints
         For details, see RENESAS TOOL NEWS "A Note on Using the M16C R8C Debugger Package V.1.00 Release 00" No.

RSO-R0C30600DBW00-050401D, issued on April 1, 2005.

(2) On saving and restoring symbols entered in the C Watch window
For details, see RENESAS TOOL NEWS "A Note on Using the High-performance Embedded Workshop V.4.00.00 -- On Saving and Restoring Symbols in the C Watch Window--" No. RSO-HEW_3-050301D, issued on March 1, 2005.

(3) On docked view of the C Watch window
For details, see RENESAS TOOL NEWS "A Note on Using the High-performance Embedded Workshop V.4.00.00 -- On Saving and Restoring Symbols in the C Watch Window--" No. RSO-HEW_2-050301D, issued on March 1, 2005.

(4) On the automatic backup facilities of workspaces
For details, see RENESAS TOOL NEWS "A Note on Using the High-performance Embedded Workshop --On the Auto-backup Facilities of Workspaces--" No. RSO-HEW_1-050216D, issued on February 16, 2005.

(5) On making a change to the settings of the RAM monitoring area
For details, see RENESAS TOOL NEWS "A Note on Using Emulator Debuggers M3T-PD308MF, M3T-PD308F, M3T-PD30MF, and M3T-PD30F; and the M16C R8C Debugger Package" No. RSO-M3T-PD308MF-050216D, issued on February 16, 2005.

2. **How to Revise Your Product**
Free-of-charge online revision is available. So revise yours by downloading the latest version of the product from **HERE** and installing it.
