E8a Emulator Software Revised to V.1.03 Release 01

We have revised the emulator software for the E8a on-chip debugging emulator--E8a Emulator Software--from V.1.03 Release 00 to V.1.03 Release 01.

The emulator software and the emulator are used to debug systems designed with members of the R8C, M16C, H8S, H8, and 740 families of MCUs.

For details of the product, go to:

<http://www.renesas.com/e8a/> (This URL is one of our global sites.)

1. Descriptions of Revision

1.1 Emulator Debugger Revised

In the emulator debuggers included in E8a Emulator Software, only the following has been revised:

- M16C E8a Emulator Debugger to V.1.03.01

1.2 Supported MCUs Increased

The following MCUs of the M16C family have been added to the support line:

(1) In the M16C/50 series

- R5F35L30, R5F35L23, R5F35L33, R5F35L26, R5F35L36, R5F35L2E, and R5F35L3E (M16C/5LD group)
- R5F35630, R5F35623, R5F35633, R5F35626, R5F35636, R5F3562E, and R5F3563E (M16C/56D group)

(2) In the M16C/60 series

- R5F363A6, R5F363B6, R5F363AE, R5F363BE, R5F363AK, and R5F363AM (M16C/63 group)
- R5F364A6, R5F364AE, and R5F364AM (M16C/64A group)
- R5F36506, R5F3650E, R5F3650K, R5F3650M, R5F3650N, R5F3650R, R5F3650T, R5F3651E, R5F3651K, R5F3651M, R5F3651N, R5F3651R, R5F3651T, and R5F36526 (M16C/65 group)
- R5F36CA6, R5F36CAE, R5F36CAK, and R5F36CAM (M16C/6C group)

The supported MCUs are also viewed in the Web site at
<http://www.renesas.com/e8a>
and click Target Devices in the left pane of the page.

2. How to Update Your Product

On-line update is available free of charge. Update yours in either of the following ways:

(1) Use AutoUpdate Utility. This service will be available on and after September 16.

Note that if you update yours in this way, yours is updated with the debugger-package edition. For the debugger-package and full-package editions, see NOTICES below.

(2) Download either of the update programs of the V.1.03 Release 01 product, full-package and debugger-package editions, from the Web site at:

http://www.renesas.com/e8a_download

This site will be opened from September 16 on.

NOTICES:

You are able to select either of the following two update programs:

(a) Full-package edition

This edition contains the full set of the emulator debuggers for the E8a emulator, High-performance Embedded Workshop, the evaluation version of the related C compiler package, the user's manual, and AutoUpdate Utility.

If you update yours by using this edition in the development system where High-performance Embedded Workshop V.4.05.00 or earlier resides, it will be updated to V.4.05.01.

(b) Debugger-package edition

This only contains the full set of the emulator debuggers for the E8a emulator and the user's manual. Since High-performance Embedded Workshop is not included, install its V.4.05.01 product or later one onto your PC in advance if yours is earlier than V.4.05.01.
