Extra-Charge Upgrade Service of the E30 On-Chip Debugging Emulator Provided

The on-chip debugging emulator E30 is upgradable to E30A with extra charge. The former is used for the M32C/90 and R32C/100 series, M16C family, and the latter the R32C/100 series of MCUs.

1. Upgradable Product

The on-chip debugging emulator E30, which is used for the M32C/90 and R32C/100 series of MCUs, is upgradable to E30A.

Note, however, that if you use the E30 to evaluate and debug systems with the following MCUs, do not upgrade it because the E30A supports none of them:

- The M32C/90 series
- The R32C/100 series, R32C/112 group

2. Descriptions of Upgrade
