A Hardware Tool Released in the First Half of March 2008

We released a hardware tool described below in the first half of March 2008.

1. For the M16C/60 series M16C/62P group and for the M32C/80 series

R0E330850ACBP0: A protecting accessory board used in combination with an emulator for the M16C/60 series M16C/62P group or the M32C/80 series.

When connected in between with an emulator and a converter board, the R0E330850ACBP0 protects the emulator against improper connection in the user system. The compact emulators and emulation proves that can be connected with the R0E330850ACBP0 are as follows:

- **Compact emulators:** M30850T3-CPE, M30870T2-CPE, and M3062PT3-CPE
- **Emulation proves:** M30830T-EPB, M30850T2-EPB, M30870T-EPB, M30880T-EPB, and M3062PT2-EPB

For details of the product, see the Web page at http://documentation.renesas.com/eng/products/tool/rej10j1734_r0e330850acbp0_u.pdf

(902-KB PDF file).
