A Hardware Tool Released in the Last Half of November 2006

We released the hardware tool described below in the last half of this November.

1. For the 32186 Group, M32R/ECU Series, M32R Family

- (1) M32186T2-PTC: A converter board for in-circuit connection for the M32186FxxFP MCU

When you debug programs for the M32186FxxFP, using this board in combination with the SDI emulator M32100T3-SDI-E or M32100T5-SDI-E enables you to utilize real-time trace capabilities.

NOTICE: The M32170T-SDI, M32100T-SDI-E, or M32100T2-SDI-E can also

be used together with this board. In this case, however, more items of trace information will be lost than in the M32100T3-SDI-E or M32100T5-SDI-E used.

For details of the specifications of the product, see the user's manual(PDF, 276KB) of the M32192T2-PTC.

2. Ordering Information

Product Type: M32186T2-PTC

Type Name: As above
