M16C R8C E100 Emulator Software Revised to V.1.03 Release 01

We have revised M16C R8C Emulator Software from V.1.03 Release 00 to V.1.03 Release 01.
This emulator software product is used in combination with the E100 emulator. To see an overview of the product, click "Debug Functions" on the top left menu of the E100 at:
http://www.renesas.com/e100
The above URL is one of our global sites.

1. Description of Revision

The following known problems have been fixed:
- With using the MCU unit for the R8C/3x MCU series--R0E521300MCU00

For details see RENESAS TOOL NEWS Document No. 110427/tn1 at:
http://tool-support.renesas.com/eng/toolnews/110427/tn1.htm

2. How to Update Your Product

Online update is available free of charge. Update yours in either of the following ways:
(1) Use AutoUpdate Utility. This service will be available on and after June 20.
(2) Download the update program of the product from:
http://www.renesas.com/e100_download
Then execute it. The update program will be published on the Web site on June 20.
The above URL is one of our global sites.

NOTICE:
If the above update is executed in the system where High-performance Embedded Workshop V.4.07.01 or earlier resides, it will also be updated to V.4.08.00.
