

RENESAS TOOL NEWS on April 1, 2009: 090401/tn2

An MCU Unit for the E100 Emulator R0E530640MCU00 (for the M16C/64 MCU Group) Upgradable with Extra Charge

We are upgrading an MCU unit for the E100 emulator R0E530640MCU00 (for the M16C/64 MCU group) to R0E530650MCU00 (for the M16C/65 and /64A MCU groups) with extra charge.

1. Products Upgradable

The commercial and WS products of the R0E530640MCU00 (for the M16C/64 group, M16C/60 series of MCUs)

2. Description of Upgrade

By this upgrade, the MCU unit becomes capable of debugging systems designed with MCUs of the M16C/65 and /64A groups, M16C/60 series. Note, however, that the upgraded MCU unit cannot debug those of the M16C/64 group.

3. Extra Charge for Upgrade

For the extra charge for upgrade, contact your local Renesas Technology sales office.

In the extra charge is included the charge for checking your MCU unit. If yours does not work properly, another additional charge will be made for repairing it.

4. How to Apply for Upgrade

Send the R0E530640MCU00 extra-charge upgrade application form filled in to your local Renesas Technology sales office. The application form is appended to the ending of this news.

5. Effective Date of Application

Acceptable from April 16, 2009, to September 30, 2009, inclusive. If circumstances prevent you from sending your application form in

this period, please contact your local Renesas Technology sales office.

6. Delivery of the Upgraded Product

We will ship back your product upon upgrading it. To upgrade your product, it takes about 10 working days except for the transportation period.

7. Notices

- (1) After upgraded, the product cannot debug systems designed with MCUs of the M16C/64 group.
- (2) If your product does not work properly, another additional charge will be made for repairing it.
- (3) We will not be able to supply you with another product for the period of time of upgrade.
