[New release]

Compiler Package Annual License

Outline

We are releasing annual licenses with an expiration date of one year for the following compiler packages from Renesas.

(1) C Compiler Package for RH850 Family (V1.02.00 and later)

(2) C/C++ Compiler Package for RX Family (V2.03.00 and later)

(3) C Compiler Package for RL78 Family (V1.01.00 and later)

1. Overview

These annual licenses are valid for one year and are for compiler packages from Renesas.

See the following URL for details of the annual licenses. (The information will be available from April 20.)

2. Features

Annual licenses are compiler licenses which are valid for one year[Note 1] and are a lower-cost alternative to traditional permanent licenses[Note 2] for compiler packages from Renesas.

Annual licenses allow for cost-effective purchasing of compiler licenses according to variations in your development system.

Note 1: The effective period is one year from the time the code for obtaining the license shipped with Renesas compiler products is initially registered on the relevant Web site of Renesas. When registering the code for obtaining the license, you can also acquire the license key required for using the compiler product.

Note 2: In contrast to annual licenses with an expiration date of one year, traditional licenses with no expiration date for Renesas compilers are referred to as permanent licenses.

➢ Application example of the annual license: Compiler addition when program developers are temporarily increased

When program developers need to be temporarily increased, insufficient compiler licenses can be supplemented by purchasing annual licenses for effective cost management in regard to variations in the number of compiler users.

Additionally, by considering annual repurchase of licenses and expiration dates, the overall cost of compiler licenses can be cheaper than by purchasing additional permanent licenses.

Acquire and use the license key of the annual license by the following procedure.

(1) Log in to My Renesas on the Web site of Renesas.
    My Renesas: https://www.renesas.com/myrenesas

(2) From "Obtaining a Subscription License Key" on the left menu, register the code for obtaining the license shipped with Renesas compiler products.

(3) Acquire the license key of the annual license.

(4) Register the acquired license key of the annual license in the tool that manages the following licenses, and then start using the compiler.

    - Node Locked licenses
        License Manager V2.00.00 and later

    - Floating licenses
        Floating License Server V2.00.00 and later
