RENESAS Tool News

Real-Time OSes M3T-MR308
Updated to V.1.20 Release 1B

We have updated the M3T-MR308 real-time OSes for the M32C/80 and M16C/80 series MCUs as follows. In this update, only the corporate name displayed at launching the products has been changed:

- the M3T-MR308K real-time OS development kit: from V.1.20 Release 1A to V.1.20 Release 1B
- the M3T-MR308S real-time OS mass-production contract: from V.1.20 Release 1A to V.1.20 Release 1B

Note:
As we informed you at the beginning of this April, our corporate name was changed from Mitsubishi Electric Semiconductor Application Engineering Corporation to Renesas Solutions Corporation on April 1, 2003. For information on establishment of the latter company, visit our Web site.

1. **Description**
   The corporate name displayed at launching the M3T-MR308 products has been updated. However, no specifications and functions of the updated product has been subject to any changes. For the datasheets of the products, please see here.

2. **How to Update the Current Products and Order the Updated Ones**
   The M3T-MR308 is a product for special users. If you need the latest version of Real-time OS with online, please contact RSO Tool Technical Support.
