Revision of the EEPROM Emulation Library for the RL78 Family CA78K0R Compiler Pack01 Intended for Use in Japan and Other Asian Countries (Japan Release) to Ver.1.14

The Japan Release of the EEPROM emulation library for the RL78 family CA78K0R compiler Pack01 (intended for use in Japan and other Asian countries) is being revised to Ver. 1.14 from Ver. 1.13. The product is supplied free of charge. Refer to the following URL for an overview of this product.

https://www.renesas.com/flash_libraries/data_flash

1. Description of Revision

1.1 Addition of supported MCUs

RL78/F13, RL78/F14, RL78/F15,
RL78/G1D, RL78/G1F, RL78/G1H,
RL78/I1E, and RL78/L1C groups

Refer to "RL78 Family Self RAM List of Flash Self Programming Library"
at the following URL for the supported MCUs.

<https://www.renesas.com/search/keyword-search.html#genre=document&q=r20ut2944ej>

Contact the following URL with inquiries regarding the MCUs which are not listed.

<https://www.renesas.com/contact>

1.2 Modification of error processing

The handling of errors by the command to execute EEPROM emulation (EEL_Execute) has been improved.

Refer to "3. Revisions" in the following release note for details of the new revision.

The information will be available from March 22.

2. Obtaining the Product

To obtain the product, follow these steps:

(1) Visit the Web site at:

https://www.renesas.com/data_flash_download

A list of software is displayed.

(2) Find the following product name in the list:

EEPROM Emulation Library Pack01 Ver.1.14 for the CA78K0R Compiler
for the RL78 Family

The page will be available from March 22.

(3) Click on the link in the column "Product Name", then click on "Download" on the "Download Search Results" page that pops up.

(4) Log in to MY RENESAS.

(5) Read through the agreement that appears, then click on "Agree", and the software will be downloaded.
