Outline

QE for Display[RX,RA], a development assistance tool for Display Applications, has been updated from V3.1.1 to V3.2.0.

1. Description

The following sections cover the main enhancements. For details and how to install the product, see the release note at the link below.

- QE for Display[RX,RA] V3.2.0 Release Note

1.1 Addition of Supported Devices

- The following group is now supported.
  RA Family: RA8D1 group

1.2 Renewal of Main View

To open the main view, select the e² studio menu, [Renesas Views], [Renesas QE], and [LCD Workflow RX,RA (QE)]. There are two types of main view.

When the main view is opened for the first time, a detailed guide appears (Figure 1: containing guidance and tutorial videos). When the view is narrowed, a simple guide appears (Figure 2). Changing the width toggles between these view guides.
2. Operating Environment

- e² studio Integrated Development Environment 2023-07 or later
  
  For how to use QE for Display, select [Help] in e² studio, and then see [QE].

3. Installing the Product

Download the installer for QE for Display[RX,RA] V3.2.0 from the link below.
