Outline

We have updated the e² studio integrated development environment from 2023-04 to 2023-07.

Major functional improvements and changes are as follows.

➢ Upgrade version of Eclipse platform, Java and CDT
➢ Update of RL78 and RH850 device files
➢ Support of new versions of Smart Configurator for RX (2.18.0) and RL78(1.7.0)
➢ Improvements of Installer
➢ Improvements of debugger

For an overview of the product, refer to the following URL:
https://www.renesas.com/e2studio

1. Products to Be Updated

➢ e² studio versions from 2020-04 to 2023-04

To check the version of e² studio, click the [Help] menu of e² studio > [About e² studio] to open the dialog box.

2. Description

The main contents of the upgrade are described below. Refer to the release note below for details. The release note is available in the [Documentation] list on the e² studio product page. It will be available from July 20th.

2.1 New Features, Improved Functionality

We have improved and changed the following.

For details about the improvements, refer to “What is new in 2023-07?” in the release note listed above.

2.1.1 New eclipse platform support

2023-04 includes a new eclipse platform and new version of CDT (C/C++ Development Tooling).

Please refer to the following documents for details.

2.1.2  Updates of devices support
Device files of the following groups has been updated in e² studio 2023-07:

2.1.3  New versions of Smart Configurator support
The following new version is supported. Please refer to each of Smart Configurator Release Note for details.
 Smart Configurator for RX 2.18.0
 Smart Configurator for RL78 1.7.0

2.1.4  Improvements of Installer
Lite and Standard mode are added on e² studio installer with simplified operations.
  Lite - Install minimum set of build and debug features. Recommended for users new to e² studio.
  Standard - Install advanced features such as optimization assistant and performance analysis.
  Custom - Conventional installer interface to install or exclude any components.

Note: You could add features later by running installer as Modify mode over Lite/Standard installed e² studio. Default Language pack(s) will be installed in Lite/Standard based on OS language locale. Please select Custom when you use other languages.
2.1.5 Improvement of Debugger

- Functional Improvements of EventPoint

Via context menu in Expressions or IO Registers view, you can quickly create an EventPoint configuration. The name of selected variable or register in the view will automatically be input as event condition.

- Improvements of IO Registers view

In addition to XML and HTML, text file export is supported in IO Register view. This feature export view contents such as register name, register value and address.

You can also copy the contents to clipboard via "Copy" context menu opened over selected registers in the view.

- Upgrade of GDB (for Arm-core based device families: RA, RZ, Synergy, DA)

GDB has been upgraded from 7.8 (32bit) to 12.1 (64bit) in e² studio 2023-07. Now GDB supports Python3.
3. Updating Your Product

Download the installer from the e² studio product page (the following URL) and install the program. (2023-07 will be available from July 20th.)

https://www.renesas.com/e2studio

The installer is available in the [Downloads] section in the [Documentation & Downloads] list.

Note 1: When you have e² studio 2022-10 and older versions, please install e² studio 2023-07 to a new location instead of using "Upgrade" installation. Make sure that the folder path of the install destination does not include any multi-byte characters, extended ASCII (half byte character greater than 0x7f) characters or symbol characters other than "_" (underscore).

Note 2: Windows version of this product supports 64-bit Windows. This product does not work on a 32-bit Windows.

Note 3: For FSP/SSP supported device families and groups (RA, RZ/T2x, RZ/N2x, RZ/A2x, RZ/A3x, RZ/G2x, RZ/V2x and Renesas Synergy™), use the installer that includes the software packages. Please refer to the following page for software packages and the installers:

Software - Middleware, Drivers, OS:
https://www.renesas.com/design-support/software

4. End of support for Windows 8.1

Windows 8.1 is no longer supported by Microsoft. Also, Windows 8.1 is no longer supported in e² studio 2023-07 and future version. Since e² studio is not evaluated with the OS version, potential problems may remain undetected.
